

Did **Person 6** have any connection with **Person 2**?

It's an **empty** cell, they didn't have a connection.

Good! which person had the **most connections** with others?

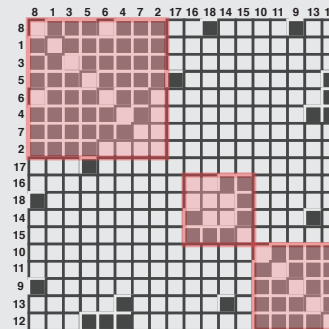

Person 4 and **8** had the most connections, both with **8** persons.

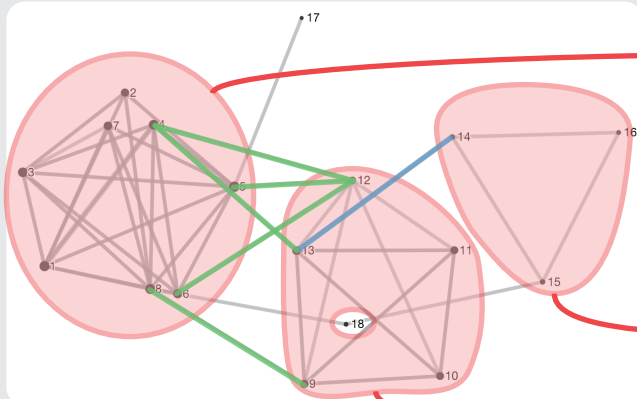

ok, do they form any **gangs**?

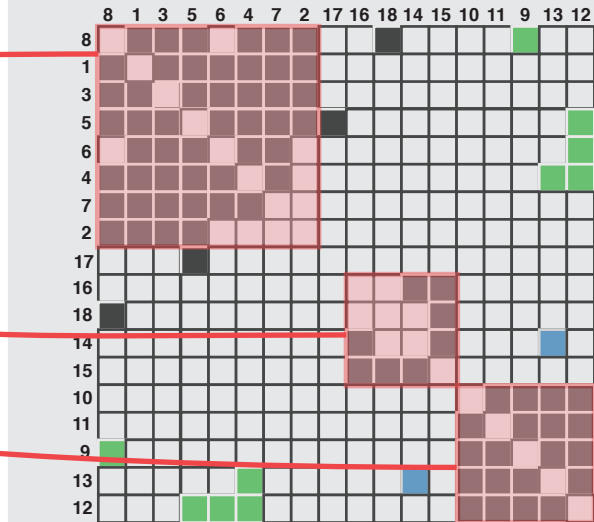

The three blocks show how they are grouped in the network.

what do they mean?

They are connected in **three clusters**, and these clusters are connected as well.

So, what information was leaked?
